Truth-In-Savings Disclosure

Except as specifically described, the following disclosures apply to all of the share accounts described in this Truth-in-Savings Disclosure.

- Rate Information.** The Annual Percentage Yield (APY) is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. The dividend rate and APY may change at any time based on the current rate environment. We reserve the right to adjust our dividend rates and set up tiers (groups based on balance on the account) at any time without prior notification to members. Business Money Market accounts are tiered-rate accounts. Each of these accounts has a minimum balance of \$5,000.00 to earn the stated dividend. If your account balance is less than the minimum balance requirement, your Business Money Market savings will not earn any dividend. For all other accounts, the dividend rates and APYs are the prospective rates and yields the credit union anticipates paying for the applicable dividend period.
- Nature of Dividends.** Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period. The closure of an account prior to dividends posting will result in the forfeiture of dividends.
- Dividend Calculation.** Compounding and Crediting. The daily balance method is used to calculate the dividends on your account. This method applies a daily periodic rate to the principal in the account each day. All dividends are compounded daily and credited monthly.
- Business Plus** accounts are tiered-rate accounts. The dividend rate specified for a tier will apply only to the portion of the account balance that is within that tier. The range of annual percentage yield(s) vary depending on the balance in the account and are shown for each tier. The stated dividend rates and APY will only be earned on applicable balances when twelve debit card purchases post and clear during the monthly qualification cycle. ATM, ACH, Bill Payment transactions and merchant returns do not count towards this requirement.
- Business Rewards** accounts will earn 1 point for every \$4 spent on purchases when using your Rewards debit card.
